GERMANY SCORED

England Protests Against Sinking of Hospital Ships—Other War Bulletins.

CHICAGO, April 23.—Five alleged anti-American rioters are under arrest, charged with beating to death Gregario Inquandi because he shouted "Vive America." Inquandi, with four others, was set upon when singing American songs and waving American flags. Four of the men attacked escaped, but with broken ribs and bruises. The victims were ordered to throw down their flags and shout for Germany. This they refused to do and the fight ensued.

PHILADELPHIA, April 23.—Secret codes containing a cipher order to dismantle machinery on interned German liners upon the severance of diplomatic relations by the United States were discovered on the German steamship Prinz Oskar and Rhaetia, according to W. M. Berry, collector of the port. The two vessels, in government subsidy here were inspected by representatives of the United States shipping board and were ordered to a local shipyard for repairs.

Collector Berry announced that when the two liners have been made seaworthy they probably will be placed in the transatlantic service under government direction.

WASHINGTON, April 23.—The State department, in a statement made recently charges the German military governor in forcing the liquidation of certain Belgian business firms and has gone so far as to order them to turn in to banks within the German empire amount of accounts held by French and British citizens.

HAMILTON, ONT., April 23.—Lieut. Col. Walter Stewart, a native of Covington, Ky., who had the unique distinction of commanding the first machine gun battalion in the world, has been killed in action with the Canadian troops, according to a cablegram received here.

WASHINGTON, April 23.—The Senate recorded itself Friday in favor of censorship during the war. A censorship clause of the Administration's espionage bill, after decided modification, was retained in the bill by a vote of 43 to 33, in which partisan division was disregarded. The vote came after three days of sharp debate, and was regarded as definitely forecasting final retention of the censorship provisions.

AMSTERDAM, April 23.—Strikes have broken out in various munitions factories in Germany, including the Krupp's, the Telegraf says it has learned from German sources.

According to the Berlin Vorwaerts, the strike continues everywhere in Berlin, and Chancellor von Bethmann-Hollweg's reply to a deputation of workers from the Deutsche Waffen und Munitions Fabrik, of Berlin, was a declaration to assume the task of arbitrator.

EL PASO, TEX., April 23.—American Ambassador Henry Fletcher was hissed in the chamber of deputies when he appeared for the opening of the Mexican Congress, according to a report received here from Mexico City by government agents.

The report stated that German Minister von Eckhardt was escorted to his seat by a delegation of six deputies and that the German minister was given an ovation when he appeared which lasted more than thirty minutes.

LONDON, April 23.—The Admiralty announces that two German destroyers, possibly three, have been sunk in the course of a German raid near Dover.

Five German destroyers took part in the Dover raid. They were engaged by the two Dover patrol vessels. The British suffered no material damage.

The British casualties were slight in comparison with the results obtained. One hundred and five Germans were saved.

BUNEOS AIRES, April 23.—El Diario says that the government probably will break off relations with the German minister as there is no hope of obtaining satisfactory explanation or indemnification of the sinking of the Monte Protegido. It adds that Argentina will then join the nations fighting for liberty, civilization and democracy.

There is a persistent rumor here that the Argentine sailing ship Oriana has been sunk by a submarine in the Mediterranean. Confirmation or denial of the rumor is awaited with great eagerness.

There is a report also that the Argentine steamer Curumalan, a vessel of 1,827 tons, has been sunk. No news of her arrival at her port of destination has been received thus far.

SAN ANTONIO, TEXAS, April 23.—General Pershing, commander of the Western Department, has sent a message to Chambers of Commerce

LOCAL CHAPTER U. D. C. MAKES DONATION.

One of the most interesting meetings of the year was the one held by the Richard Hawes Chapter, Daughters of Confederacy, in the Confederate room at the court house, Saturday afternoon.

The meeting was presided over by Mrs. J. J. Connell, president. It had been previously announced that the principal feature of the meeting would be a "sewing bee" for the Confederate room in the Massie Memorial Hospital, and as a result the ladies brought their sewing tools along, which they used to the best possible advantage. A large number of articles, both useful and ornamental, were made as a result of the members' skill with the needle. These articles, after adjournment of the meeting, were delivered at the hospital by Mrs. Russell Mann and Mrs. Charles C. Lee.

Due to the tireless efforts of Mrs. Russell Mann, the Chapter announced a donation of \$75 had been made to the Jefferson Davis Memorial to be erected at Fairview, Ky., also to the Educational Fund, and to the Arlington Memorial in Arlington Cemetery, near Washington, which is to be completed this year. A number of cards of thanks were received from individuals to whom the U. D. C. had rendered marked favors.

At the conclusion of the business session an interesting social hour followed during which refreshments of chocolate and wafers were served.

The United Daughters of the Confederacy are doing as much as any other women's organization to keep alive the spirit of patriotism, which is the underlying principle of the work, as well as to perpetuate the memory of the gallant men of '61, who, were they called upon, would respond just as readily to the Nation's defense as they did to their beliefs in the troublous days of the Civil War.

WEATHER FORECAST.

The weather forecast for the week beginning Sunday, April 22, is as follows:

For Ohio Valley and Tennessee—Except showers Tuesday or Wednesday generally fair, with normal temperature.

TOBACCO FERTILIZER.

Tobacco Fertilizer. Supply is limited. Place orders at once.

C. S. BRENT & BRO.

(April 20-4t)

BLUE GRASS DENTISTS PLEDGE SUPPORT TO U. S.

At a meeting of the Blue Grass Dental Society, held at the Phoenix Hotel, in Lexington, Friday night, the following resolutions, introduced by Dr. M. H. Dailey, of Paris, were adopted, pledging support of the members to whatever service President Wilson might require of them:

"Be it resolved, That the Blue Grass Dental Society offer its services to the President of the United States to be used when and where we can be of the most service to our country."

Action on a somewhat similar resolution was also taken Saturday by the State Board of Dental Examiners.

Secretary I. S. Stephenson, at the direction of the society, telegraphed the resolution to President Wilson. Details of the Reserve Dental Corps were explained by Dr. W. S. Bradbury, of the navy.

Those from Paris who attended were Dr. Raymond McMillan, president of the Association; Drs. Harry Mathers, J. H. Conner, M. H. Dailey.

In 13 border cities asking them to assist Federal officers, including the army, in suppressing the sale of arms and munitions in the present crisis, and in this way "avoid the danger of such munitions falling into the hands of irresponsible persons."

FRANKFORT, Ky., April 23.—Organization for the purpose of conserving the food supply was discussed by Governor Stanley and 100 men from every section of the State at a conference here. On motion of Dr. J. T. McCormack, Governor Stanley was directed to organize the State so that every means possible can be put into operation to increase the food supply.

AMSTERDAM, April 23.—More than 500 German fusiliers, sailors and landstrumers on Monday evening, tried to cross the Dutch-Belgian frontier from the environs of Knocke to Gear Cadan, Holland, says the Handelsblad, but the attempted desertion was frustrated after the party had been pursued and attacked by Uhlans.

LONDON, April 23.—The Turkish government on Friday evening officially informed the American embassy that diplomatic relations with the United States had been broken off, according to a Berlin dispatch forwarded by Reuter's correspondent at Amsterdam.

American Ambassador Elkus, who is suffering from typhus fever, the report adds, will have to remain some time in Constantinople. The Ambassador's condition has shown some improvement.

COMMUNITY GARDEN

Prominent Paris Man Donates Use Of Four Acres Of Ground.

In line with the pleas made by Giv. Stanley and Commissioner of Agriculture Cohen for the conversion of all available space into gardens for the raising of foodstuffs, Paris people have responded nobly and generously to the call, and all over the city gardens are replacing unused back lots and lots that have previously been used as dumping grounds for rubbish.

THE NEWS learns on good authority that Mr. Catesby Spears, of E. F. Spears & Sons, of Paris, has made a proposition to the Bourbon County Health & Welfare League and the Paris Civic League to donate the use of four acres of tillable land located in the old Fair Grounds Addition near Paris, which they recently purchased, as a community garden. It was suggested that the entire four acres be divided into small garden plots, to be worked by boys and girls and as many able bodied men as could be obtained for the purpose of raising vegetables and foodstuffs on the community plan that has proven so successful and profitable in hundreds of other places. It was further stated that Mr. Spears also offered to donate enough seed to start the project, provided the Health & Welfare League and the Civic League would take the matter in hand and see to the working of the gardens.

The matter has been referred to Mrs. Harriet Minaker, Visiting Nurse of the Health & Welfare League, and others prominent in the work, who will endeavor to stimulate a spirit of co-operation in the boys and girls of the city.

Everybody almost is planting a garden this year. Paris people are coming right to the front in the nationwide movement to produce more food, and many a yard that was as barren last year as a billiard ball, will this season respond greedily to the gardeners' touch. Unless this is done and the co-operation of our county people is had, they will be coming into town this summer to buy fresh vegetables from their city friends and relatives. It is hoped that the generous offer of Mr. Spears may be accepted and that those four acres will soon be blooming and bearing their quota of food stuffs for the feeding of the multitudes.

If the police and county authorities will get together they can round up enough able bodied loafers of both black and white in and round Paris, to work these gardens. These fellows haven't the nerve to join the army or the navy, but they should be made to serve the country in some way, instead of wearing out their trousers polishing the chair seats.

In order to further stimulate interest and rivalry among the boys and girls in the garden project, Mr. Spears has agreed to offer a prize of \$25 to the boy or girl who makes the best showing in raising vegetables on the plot of ground assigned to them. This should be an incentive to the young people to put forth their best efforts.

Give us liberty of body, mind and soul, or else we haven't any liberty at all.

WORK TO BE STARTED SOON ON KRESS BUILDING.

The news was given out in Paris, Saturday that the actual work of construction on the Kress Co.'s building at the corner of Main and Sixth streets would soon be under way.

Mr. Fred S. McCormick, of the S. F. McCormick Lumber Co., of Lexington, was in Paris, Saturday, taking measurements and a general survey of the lot on which the building is to be erected. Mr. McCormick's firm has been awarded the general contract. They will make formal application for a building permit at the meeting of the City Council next Thursday night, which, of course, will be granted.

As soon as this arrangement is effected the bids of local contractors for the various portions of the work will be opened, and the contracts for the work awarded, with the understanding that work will commence at once. It is likely that all the local contractors who have put in bids will be awarded contracts. While here Mr. McCormick made arrangements with Mr. Edw. Tucker for the use of space adjoining his business house for the erection of a temporary structure in which to keep tools, and an office for the consultation of the workmen as to plans, etc.

The building, as shown on the plans, will be an ornamental addition to that part of the city, and will be used by the Kress people, as one of the chain of five and ten cent stores, which they are establishing all over the South. It was stated that the Company at first contemplated using the entire frontage of the lot, but later plans established a passage way of about twenty feet between the walls of the contemplated building and the business house of Mr. Tucker.

REV. RICE ACCEPTS CALL TO PARIS

The officers of the Paris Presbyterian church have received a communication from Rev. John J. Rice, of Nicholasville, who was recently extended a call to the pastorate of the church.

In his letter Rev. Rice stated that after mature deliberation and consideration of the call he had decided to accept, and would be in Paris this week to hold a conference with the officers and to meet as many of the congregation personally as he could.

Rev. Rice will not assume the duties of his new charge until June, when he will come to Paris to take charge permanently. While here this week he will attend to some of the minor details necessary to a change of residence.

Rev. Rice is a man of great power and a noted pulpit orator. His coming to Paris will be a decided benefit, and he will add great strength and put new life in the work of the church here.

Work on the new church is proceeding as rapidly as circumstances and weather conditions will permit. The foundation and stone work have been completed, preparatory to beginning work on the superstructure, of what will be a modern church edifice in all respects.

POPULAR RAILROAD ATTACHE RESIGNS HIS POSITION

After thirteen years business connection in the employ of the Louisville & Nashville railroad in various capacities Mr. J. Kiser Smith has left the service, and will in the future occupy a responsible position with the commission firm of E. F. Spears & Sons, in Paris.

Mr. Smith, by close attention to business, has risen from the ranks by progressive stages, until he had been assigned to the important position of Ticket Agent at the Tenth Street passenger station of the L. & N. in Paris. In this position he gained the esteem and good will of the traveling public by his uniform courtesy to all.

Mr. Smith's resignation became effective Saturday, and he assumed his new duties yesterday with Spears & Sons. He is succeeded as ticket agent here by Mr. W. R. Clinkenbeard, who has for several years been night ticket agent at the Union Station, in Lexington.

—WE KNOW NOW—

Boys' Suits

For Spring and Summer Wear

Alert to the clothing needs of Paris boys, we have assembled an array of Suits. Furnishings, Hats and Shoes that affords great pleasure to every boy who wants to be well dressed.

Every Good Style of the Season is Represented—

Norfolk Models, Pinch Backs, Belted-All-Around Styles, and many others. Many new pattern effects in seasonable colorings, blue serges, and other solid color effects in various fabrics. Sizes range from 6 to 17 years; prices from
